LAW & ECONOMICS CENTER

HENRY G. MANNE PROGRAM IN LAW & ECONOMICS STUDIES

Workshop for Law Professors on Teaching Capitalism

Sunday, July 10 - Thursday, July 14, 2022
Beaver Creek, Colorado

ABOUT US

Since its inception in 1974, the Law & Economics Center has played a critical role as a leader in law and economics research and education. The LEC recognizes both the importance of timely, relevant, and unassailable research on public policy issues as well as the necessity of communicating research findings to those who are directly shaping our country's public policy discussions. With research divisions devoted to top-quality legal policy analysis and educational outreach to judges, attorneys general, and other policymakers, the LEC is uniquely equipped to positively affect national policy outcomes.

The generous support of individuals, foundations, and corporations makes LEC activities possible. A current list of LEC donors may be found on our website at www.masonlec.org.

OUR DIVISIONS

THE JUDICIAL EDUCATION PROGRAM is the nation's preeminent provider of high-quality, balanced judicial education seminars and conferences that focus on economics, finance, accounting, statistics, and the scientific method. The LEC has been offering educational programs for judges since 1976.

THE HENRY G. MANNE PROGRAM IN LAW & ECONOMICS STUDIES promotes law and economics scholarship by funding faculty research and hosting policy-relevant research roundtables and academic conferences.

THE ATTORNEYS GENERAL EDUCATION PROGRAM offers courses that provide a broad-based understanding of economic and public policy issues to state attorneys general, solicitors general and their staff lawyers.

THE CONGRESSIONAL CIVIL JUSTICE ACADEMY provides balanced educational programs on a range of civil justice issues for the benefit of Members of the US Congress, their staffs, and their constituents.

THE PROGRAM ON ECONOMICS & PRIVACY produces timely and original economic analysis of the privacy, data security, competition, and consumer protection issues intrinsic to the modern, digital economy, and it injects this analysis into public discussions by holding educational programs and forums in which scholars, thought leaders, and policymakers share research and insights.

THE TRIBAL LAW & ECONOMICS PROGRAM offers law and economics education which provides tribal leaders, judges, and academics with effective tools that aid them in their efforts toward self-governance, commissions rigorous research that produces data needed in support of those efforts, and creates a clinic staffed by law students and guided by law faculty offering legal assistance to the tribes.
